

## Research Papers:

- A.K. Srivastava and **S.P. Tiwari**, (2002): A topology for fuzzy automata, in: *Proc. AFSS Internat. Conf. on Fuzzy Systems*, Lecture Notes in Artificial Intelligence, Springer, Berlin, No. **2275**, 485-490.
- A.K. Srivastava and **S.P. Tiwari**, (2003): On relationship among fuzzy approximation operators, fuzzy topology, and fuzzy automata, *Fuzzy Sets and Systems*, **138**, 197-204.
- A.K. Srivastava and **S.P. Tiwari**, (2004): Fuzzy Chu spaces and fuzzy topologies, *Internat. Jour. of Uncertainty, Fuzziness and Knowledge-based Systems*, **12**(2): 245-254 (2004).
- **S.P. Tiwari** and A.K. Srivastava, (2005): A decomposition of fuzzy automata, *Fuzzy Sets and Systems*, **151**, 503-511.
- **S.P. Tiwari** and A.K. Srivastava, (2006): Some categorical aspects of fuzzy Petri nets, in *Proc. MATIET – 2006*, Allied Publishers, New Delhi, 303-304.
- A.K. Srivastava and **S.P. Tiwari**, (2007): Intuitionistic fuzzy automata and associated topologies, in: *Proc. ICCTA, IEEE*, 267-271.
- A.K. Srivastava and **S.P. Tiwari**, (2010): IF topologies and IF automata, *Soft Computing*, **14**, 571-578.
- **S.P. Tiwari**, (2010): On relationship among intuitionistic fuzzy approximation operators, intuitionistic fuzzy topology and intuitionistic fuzzy automata, *J. Appl. Math. & Informatics*, **28**, 99 – 107.
- A.K. Srivastava and **S.P. Tiwari**, (2011): On another decomposition of fuzzy automata, *Journal of Uncertain Systems*, **5**, 33-37.
- A.K. Srivastava and **S.P. Tiwari**, (2011): On Categories of fuzzy Petri nets, *Advances in Fuzzy Systems*.
- **S.P. Tiwari** and Shambhu Sharan, (2011), On coverings of rough transformation semigroups, in: *Proc. RSFDGrC*, Lecture Notes in Artificial Intelligence, Springer, Berlin, No. **6743**, 79-86.
- **S.P. Tiwari**, Anupam Kumar Singh and Shambhu Sharan, (2011), Fuzzy automata based on lattice-ordered monoid and associated topology, *Journal of Uncertain Systems*, *Accepted*.

## Research Monograph:

- **S. P. Tiwari**, (2009): *Some Fuzzy Computing Models: A Topological and Categorical Approach*, Lambert Academic Publishing, Germany.
